# Ukraine Under Fire: Understanding Russian UAV and Missile Attacks in Ukraine

4180

Total Missiles

3351

Total Destroyed

Ukr AD total success rate

80%

Highest strike probability:

12:00 AM - 05:00 AM

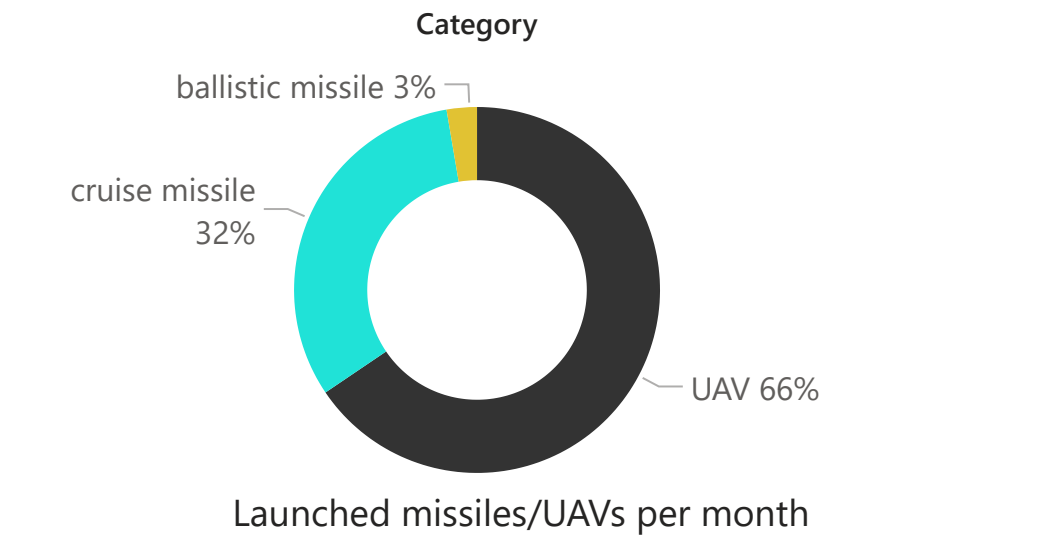

Average strike duration:

03:30:00

## Success of Ukrainian AD Systems per missile/UAV model

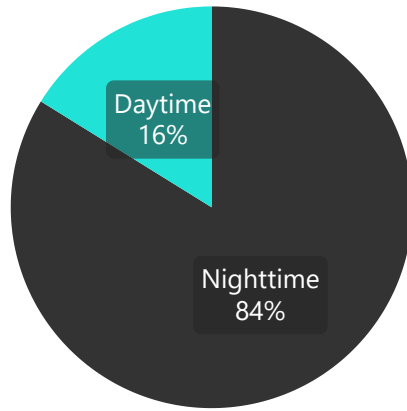

| No. of distinct missile/UAV launched |      |
|--------------------------------------|------|
| Shahed-136/131                       | 2095 |
| Kh-101/Kh-555                        | 728  |
| Kalibr                               | 266  |
| Kh-22                                | 72   |
| Reconnaissance UAV                   | 60   |
| Kh-59                                | 50   |
| Lancet                               | 47   |
| Unknown UAV                          | 46   |
| Orlan-10                             | 41   |
| Iskander                             | 30   |
| Merlin-VR                            | 15   |

| Carrier    |    |
|------------|----|
| Tu-95MS    | 36 |
| Navi       | 33 |
| Su-35      | 17 |
| Tu-22M3    | 17 |
| MiG-31K    | 7  |
| Submarines | 6  |
| Tu-160     | 6  |
| Tu-95      | 4  |
